

**PAIR**  Prescreening, Assessment, Intake, Referral

*Connecting people to vital housing resources based on their needs; letting consumers prescreen for housing-program eligibility and join program waiting lists.*

**Efficient, Empowering**

- Save valuable time with automated screening and application processes.
- Screen and process client information for multiple programs with one login and one screening form.
- Empower clients to pursue program possibilities or to apply online.
- Coordinate applications and track clients across programs to reduce duplication of effort.

**Flexible**

- Customize intake fields, eligibility requirements, applicant-priority placement, data collection for your reporting needs, and more.
- Allow public access for self-service or secure the system for registered support workers.
- Detailed reports can be tailored to examine demographics and program outcomes.
- Manage client information within the system or export information for use with your existing system.

**Reliable, Secure, Intuitive, Accessible**

- Enjoy intensive system support and shared learning from other programs around the country.
