

Emphasys Housing Locator

Private Listing Portal for Recovery and Reentry Housing

To learn more, contact housinglocator@emphasys-software.com

We offer a **restricted search portal**, where **specialized housing** options such as **recovery and halfway homes, set-aside units**, and other **housing for special populations** are only searchable by **authorized users**.

Confidential

- Properties listed on a **private registry** are password protected and not publicly searchable.
- Landlord accounts are tied to the **restricted portal**, ensuring their listings are viewable only by authorized users.
- Agencies have the option to **approve properties prior to posting**.
- **Track client placements** and **record referrals** made to properties.
- **Caseworker setup** and **training** are included.

Customizable

- Listings can be **synced with licensure databases** or certifications.
- Property providers can list **detailed screening criteria** and update vacancies or bed availabilities in **real-time**.
- Users can **search by specialized fields** such as eligibility requirements, supportive services, property restrictions, and more.
- **Searchable designations** can be created for facilities with certifications and other specializations.
- Automated reports are provided to **track portal activity**.

This platform **facilitates landlord recruitment**, creates a **centralized database** of privately searchable housing options and **tracks client placements**.
